

## Regal Alga 200

Seaweed fertilizer contains high amounts of alginic acid and organic matter

Formulation: Powder

Saturation level: 500 grams per liter

HANNANN NAHADE ASIA

SOIL REGENERATION ,  
SUSTAINABLE CULTIVATION

### Introduction

Regal Alga 200 of HANNANN Company is a 100% pure extract of brown algae such as Sargosum, Ascophyllum, Nodosum and Laminaria. It also contains macronutrients and micronutrients, plant hormones and carbohydrates such as alginic acid and polysaccharides. This product contains antitoxins that help increase the resistance of plants against disease agents.

### Benefits and Particulars

- Increased absorption of nutrients
- Enhancing flowering and fruiting
- Increasing plant resistance against environmental stresses
- Improving product performance and quality
- Contains plant growth regulators
- Increasing cell division and metabolism in the plant
- No pollutants

Element	Percent
Soluble Potassium in water	16
Alginic Acid	20
Menthol	2
Free Amino Acid	2
Organic materials	50

Solubility: 100%

Product	Method of Use	Amount of Use
Garden	Water irrigation	1-1.5 Kg in hectare
	Foliar Spraying	0.3-0.5 Kg in 1000 Liter of Water
Agricultural	Water irrigation	0.5-1 Kg in hectare
	Foliar Spraying	0.3-0.5 Kg in 1000 Liter of Water
Seeds	Seed of Property	0.3-0.5 Kg in each 100 Kg of seed
